

PROFILE SUMMARY

Full-stack software developer and 3rd-year B.Tech student at MNNIT Allahabad with hands-on experience building scalable, real-time distributed applications using the MERN stack. Proficient in designing RESTful APIs, implementing secure authentication systems, and developing cloud-ready web services with React, Node.js, and MongoDB. Multiple hackathon winner with strong problem-solving skills in Data Structures & Algorithms, driven by a passion for building efficient, production-grade software solutions.

EDUCATION

• Motilal Nehru National Institute of Technology Allahabad	2023–27
Bachelor of Technology – Chemical Engineering	CGPA: 7.37 (till 6th Sem)
• Glenhill School	2022
Senior Secondary (Class XII), CBSE	Percentage: 87.4%
• Harihar Singh Academy	2020
Secondary (Class X), CBSE	Percentage: 88.6%

TECHNICAL PROJECTS

• BookHeaven 🌐	Jul '25 – Nov '25
A full-stack online bookstore with role-based access control, RESTful API design, cart management, order processing, and an admin inventory dashboard – built for scalability and clean separation of concerns.	
– Tech Stack: HTML, Tailwind CSS, JavaScript, React.js, Node.js, Express.js, MongoDB, JWT – Architected a scalable full-stack application with 2 role-based user workflows (Admin & Customer), enabling distinct access-controlled experiences for book browsing, cart management, and order placement. – Designed and deployed 10+ RESTful APIs following REST principles for authentication, book CRUD operations, cart, and order processing using Express.js and MongoDB – ensuring low-latency, stateless communication. – Implemented JWT-based stateless authentication with protected routes and role-based access control (RBAC), securing 100% of admin-only operations; a pattern analogous to network access policy enforcement. – Built a responsive admin dashboard with React and Tailwind CSS to manage 4+ core inventory actions, demonstrating end-to-end ownership from UI design to backend data persistence.	
• Splitr 🌐	May '25 – Jun '25
A serverless, real-time expense-splitting web application for distributed group expense management, automated debt tracking, and scheduled notification delivery – designed for reliability and scale.	
– Tech Stack: Next.js, React, Convex, Tailwind CSS, Inngeist, Clerk.dev, Gemini API – Built a real-time, event-driven system for expense tracking and debt management using Next.js and Convex, enabling live balance synchronization across distributed user sessions with no polling overhead. – Engineered automated background job scheduling via Inngeist to trigger daily email reminders for pending dues across all active groups – demonstrating understanding of asynchronous, fault-tolerant task execution. – Integrated Clerk.dev for enterprise-grade user authentication (OAuth, sign-up/sign-in, session management) with JWT-based access control – ensuring secure, identity-verified API access. – Leveraged Gemini API to generate AI-powered spending insights, providing intelligent summaries of group expenditure patterns, showcasing ability to integrate third-party services into production pipelines.	

TECHNICAL SKILLS

Languages	: C++, Python, JavaScript
Frontend	: React.js, Next.js, Tailwind CSS, Bootstrap, HTML5
Backend	: Node.js, Express.js, REST APIs, RESTful Architecture, HTTP/HTTPS Protocols
Databases	: MongoDB, SQL (Basics)
Auth & Security	: JWT, OAuth, Role-Based Access Control (RBAC), Session Management
Tools & Platforms	: Git, GitHub, Visual Studio Code, Chrome DevTools, Convex, Clerk.dev, Inngeist
Concepts	: Data Structures & Algorithms, Computer Networks, DBMS, Distributed Systems, Serverless Architecture, CI/CD (basics)

ACHIEVEMENTS

1st Rank – CODE KINETIC, Web Development Event, RASAYANS (Annual Technical Fest, MNNIT Allahabad)	2025
2nd Rank – DEV OR DIE, Web Development Event, POWERSURGE (Annual Tech Fest, MNNIT Allahabad)	2025
3rd Rank – CHEMETHLON, Flagship Event, RASAYANS (Annual Technical Fest, MNNIT Allahabad)	2025
1st Rank – CHEMETHLON, Flagship Event, RASAYANS (Annual Technical Fest, MNNIT Allahabad)	2023
Special Mention – HAZOPIUM, Research & Presentation Event, RASAYANS (Tech Fest, MNNIT Allahabad)	2023
